

Environmental Abrasive Blasting

SANDBLASTING • PRIMING • PAINTING

BOAT TRAILERS

We sandblast the complete trailer down to bare metal, removing all paint, rust, and dirt while leaving the metal with a uniform etch for priming. We also check for cracks and broken welds. After blasting we apply a two-part epoxy marine primer. When the prime coat is dry we apply one full coat of a two-part epoxy finish to complete trailer. A wide range of colors are available.

- Complete blast and prime jobs take 3-5 days to complete
- Owners must remove all items not to be blasted, i.e.:
wiring, lights, wood bunk rails, etc.
- Our Blast Room Measures 28' x 15' x 10'

Prices are based on trailer length, from ball coupler to end of trailer:

12' – 18'	18' – 25'	\$27.00 per foot - <i>Complete job, single axle</i>	\$32.00 per foot - <i>Complete job, single axle</i>
25' – 35'	35' & over	\$41.00 per foot - <i>Complete job, single axle</i>	By quote only

\$75.00 each additional axle Sandblasting Only -
\$18.00 per foot
